Handling, Cutting & Installation Guidelines:

Installation Best Practices:

- Do not roll or bend the sheets at any point.
- Store flat on a clean, level surface in a dry environment.
- Ensure substrate (MDF, PLY, HDF) is clean, dry, smooth, and level.
- Always remove dust from the sheet's back before bonding.
- Use soft, lint-free cloth to avoid scratches on mirror surface.
- Use PEVA or acrylic-compatible adhesives only.
- Avoid applying pressure directly on the engraved areas.
- Maintain a 2 mm groove between two sheets for expansion.
- Use sharp, acrylic-compatible cutting tools (CNC/laser preferred).
- Do not cut using dull or blunt blades to avoid cracking edges.
- Do not press or store with heavy loads on the surface.
- Nazrana comes with a pre-applied adhesive layer — simply peel and stick. No glue needed.
- Do not use waxes and polishes, they dull the natural finish.
- Navkar interio will withstand normal wear and tear but can be damaged by scratching or cutting with utensils, knives and other sharp objects.
- To minimise scratching, always place and lift objects from the surface-never drag or slide them across the surface.
- To avoid bubbles in future, the air needs to be removed by the applicator with a soft pad
- Use MDF, HDMR Boards in the base for better results.
- Don't use masking tape.

Notes & Warranty:

- Navkar warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any manufacturing defect Navkar is liable for product cost only.
- Warranty applies only to indoor decorative use.
- Always inspect sheets before cutting or applying.
- Claims will not be accepted once the sheet is cut, applied, or film removed.
- Navkar is not responsible for damage due to faulty substrate, poor handling, or external adhesives.
- No claims for cracks, patches, or adhesive failure if guidelines are not followed.
- Look for the original Navkar sticker to avoid counterfeit products.
- Thickness tolerance is $\pm 5\%$. Slight visual differences may occur.
- Warranty is void if product is misused or exposed to unsuitable conditions.
