NO CLAIM WILL BE ENTERTAINED FOR AIR BUBBLES

Any complains, due to changes in climatic conditions will not be entertained by the company.

Cutting a laminate sheet at an angle of 90 degree leads to development of cracks in corner after pasting. Therefore it is advisable to avoid cutting at an angle of 90 degrees.

Maintenance

Wipe clean with ordinary soap or household ammoniated liquid detergent. For stubborn stains use diluted organic solvent or stain remover. Abrasive cleaners and wire brushes are not recommended. Metallic & Pearl laminates are fragile and sensitive, hence the company will not entertain any claim on these laminates.

Note

Samples pasted represent only color/ pattern/ finish and not actual thickness. Please specify color or design number along with finish.

Warranty

Company warrants that its products are free from manufacturing defects and that they are fit and suitable for usual purpose, under normal & proper use. The product must be inspected prior to installation and factory liability will be limited to the cost of our product only. We suggest our customers to check the color and finish of the laminate prior to installation. The company will not entertain any complain arising out of color variation after installation
