RECOMMENDED BLADE FOR CUTTING

Diamond cutting blade. Diamond cutting tools.

← 40 TEETH
CUTTER BLADE

CUTTING RECOMMENDATIONS

For precise cutting of fabric or leather laminates, we recommend using 40 teeth Diamond Cutter Blade. Opt for Diamond cutting tools for best results.

CHOICE OF ADHESIVE

You have the flexibility to choose between Acrylic Glue or Pro-bond or Heatex adhesives according to your preference.

FURTHER INFORMATION & SAMPLES

For additional details and sample requests, please contact us.

IMPORTANT NOTES

- No guarantees or exchange under any circumstances.
- Color variations may occur between material batches. Using the same batch material is recommended to maintain consistent colours.
- The actual color of the laminate sheet may differ from this brochure due to factors such as high humidity, plywood with high moisture content, uneven surface of the substrate, inferior adhesive quality, or insufficient pressure during bonding. Please note that any delamination or bubbles after applying the sheet won't be addressed, as these issues often result from inadequate pressing during the application process.

DISCLAIMER

This information is for reference only. We do not guarantee its accuracy or completeness, nor the product properties. Design and application suitability should be determined with professional advisers. We may update product descriptions and determine defect insubstantiality at our discretion.
